

Industrial Floor Cleaner for Resin Flooring

*Water based, Biodegradable
floor cleaner*

Product Data Sheet

Data Sheet Ref: C1FC 04/06 Page 1 of 1

PRODUCT DESCRIPTION

An industrial floor cleaner that effortlessly removes oils, greases, dirt and debris from floors, walls, plant and machinery etc.

Industrial Floor Cleaner is a highly effective, versatile aqueous cleaner and degreaser. The powerful cleaning action easily removes oils, grease and heavy soiling from most flooring surfaces. Industrial Floor Cleaner leaves no smears or residues upon rinsing. Industrial Floor Cleaner is safe to use on concrete, quarry tiles, plastics including vinyl, ceramics, rubber, glass, enamel, metals, painted, surfaces, etc.

Also Industrial Floor Cleaner is non-hazardous and contains no aggressive alkalis, silicates, solvents, phosphates or harmful biocides.

APPLICATION RATES & METHODS

MANUAL: Dilute 1 part product in 20 to 50 parts water. Dilution rate depends on level and type of soiling. Cold water can be used, but for optimum results use water at approx 40°C. Apply to surface with non-abrasive cloth, sponge, spray or mop and bucket. Rinse and leave to dry as necessary.

FLOOR CLEANING MACHINES: Dilute 1 part product in 50 parts water and add to the tank of the automatic non-abrasive floor cleaning machine. Make the first pass of the machine without using the vacuum, allowing the product additional contact time with the floor. On the second pass, scrub floor and recover waste water as usual.

PRESSURE WASHERS: Use at a rate of 1 part product in 30 to 100 parts water through medium or high pressure washer. Product may be applied at low pressure and then removed with high pressure if required.

TYPICAL PHYSICAL CHARACTERISTICS

Appearance: Golden liquid
pH (as concentrate): Typically 11 to 12
Relative Density: Typically 1.04 (g/cm³)
Solubility in water: Complete

STORAGE & HANDLING

Shelf Life: 12 months in original container.

Protect against frost. Where the product has been stored in cold temperatures, leave to reach ambient temperature prior to use.

Handle in accordance with good industrial practise; no special precautions required with product alone.

DISPOSAL

Contaminated product and/or rinse water should be disposed of in accordance with local regulations.

HEALTH & SAFETY

Industrial Floor Cleaner should not cause any health and safety issues, when used in accordance with the recommended instructions. More detailed information can be obtained from the Material Safety Data Sheet.
